

Five Star Respirator Boost

When speed counts, powerful Respirator Boost provides the ultimate blend of nutrients to support respiratory immunity and clear the way for optimum lung function.

Feeding Instructions Feed Respirator Boost on recommendation from your vet for clear, healthy lungs and optimal breathing capacity.

Horses & Ponies

	ml per day
Loading rate (1-10 days)*	60-90
Maintenance	30

Shake bottle well before use.

*It is recommended to feed the loading rate for times of peak requirement.

Introduce gradually for fussy feeders, or syringe (not provided) if necessary.

Maintenance levels may be adjusted to suit the individual, and are not necessarily related to bodyweight.

A 1L bottle fed at 30ml per day will last approximately 33 days.

In the unlikely event that you require your money back please send remaining product, proof of purchase and your reason to the address below.
